

Visa Member Agent List (Europe Region)

Effective August 2017

The companies listed below successfully completed an assessment based on the Payment Card Industry Data Security Standard (PCI DSS) and provide services to Visa Europe Members.¹

PCI DSS assessments are valid for one year (refer to 'validation until' date). Reports that are 1 to 30 days late are noted in **orange** and reports that are 31 to 60 days late are noted in **red**. Entities with PCI DSS validation over 60 days are removed from the list. If your entity has turned **orange** or **red** and you are still a member agent please submit the relevant documentation to pcidsseurope@visa.com by the **15th August 2017**.

*Please note the deadline for receiving documentation is the **15th of each month** anything received after this date will be held for review for the next month's weblisting e.g. any documentation received after 15th August will be held for review for the September weblisting.*

¹ A PCI DSS assessment only represents a 'snapshot' of the security in place at the time of the review, and does not guarantee that those security controls remain in place after the review is complete. These reviews do not cover proprietary software solutions that may be used or sold by these service providers.

Inclusion on this list indicates that the service provider successfully completed a PCI DSS assessment following requirements prescribed for their level, based on the report of an independent Qualified Security Assessor (QSA). Visa does not endorse the service providers or their business processes or practices.

Visa has no duty to members, merchants, processors or other third parties to obtain or review reports from any party required to submit a report, and Visa Europe is not responsible to any party for the timeliness, accuracy or completeness of any report. Visa Europe reserves the right to remove a service provider from this list should there be any questions relating to their PCI DSS compliance. Appearance on this list does not imply that a service provider is fully compliant and removal from this list does not imply that a service provider is not compliant or been compromised.
